WORK EXPERIENCE

Product Manager — Topremit

APR 2025 – JUN 2025

- Led 4 concurrent product initiatives, aligning cross-functional stakeholders across product, design, and engineering to deliver scalable solutions
- Structured and authored detailed product requirement documents (PRDs), translating business needs into clear technical execution plans
- Analyzed user behavior and operational data using SQL and Excel to identify high-impact issues and prioritize improvements
- Drove product enhancements that reduced customer support tickets by 25% through improved user experience and clearer workflows
- Identified and reported 13 critical issues pre-release, reducing post-launch defects and improving product reliability

UI/UX Developer (Internal) — Inter Pan Pasifik Futures

AUG 2024 – MAR 2025

- Translated business requirements into structured user flows, prototypes, and system documentation to support product development
- Collaborated with cross-functional teams to ensure alignment between business objectives and technical implementation
- Led internal knowledge-sharing sessions on Git and workflow optimization, improving team collaboration and delivery speed
- Conducted end-to-end testing and validation to ensure solutions met business and user requirements before deployment

Web Designer / Web Developer — All in IT Solutions

AUG 2022 - NOV 2022

- Collaborated directly with clients to understand business needs and translate them into digital solutions
- Led website redesign projects, improving user engagement and aligning outputs with brand and business goals
- Delivered multiple client projects by balancing design, technical execution, and stakeholder expectations

Director of Information Technology (Volunteer) — Indonesian Student Association in Australia (PPIA)

JULY 2021 - AUG 2022

- Led a 20-member cross-functional team to redesign a digital platform
- Implemented structured project tracking and workflows, improving team coordination and reducing delivery time
- Conducted stakeholder interviews and usability testing to ensure continuous feedback and iterative improvement
